

ToxMinds BVBA is an international chemical safety consultancy with headquarters in Brussels, Belgium and a subsidiary office in Düsseldorf, Germany. We provide scientific, regulatory and strategic advice to an extensive range of industries that are subject to human health and environmental legislations. With our broad industry experience, we support our clients in bringing safe, regulatory compliant and publicly acceptable products to the market.

Since 2007 and through our work with large multinationals as well as small and medium-sized enterprises, ToxMinds has grown in size and expertise with international professionals. We comprise a core team of experienced toxicology, environmental and regulatory consultants, supported by a skilled and enthusiastic group of research analysts. We enjoy the scientific nature of our work, promote the use of non-animal alternatives in chemical safety assessments and appreciate the opportunity to use good science in regulatory processes.

To further strengthen our team and support our growth, we are looking for a

Toxicologist/Chemical Safety Manager (Consultant Level)

Job description

In this senior position, you will lead and manage the work required to support our industry clients in assuring the chemical safety and/or EU regulatory compliance of industrial chemicals, consumer and cosmetic products and/or pharmaceuticals. You will work directly with our clients and engage with competent authorities as needed. We are seeking a flexible, self-motivated and team-oriented individual. Candidates should be able to drive the work independently, understand the nature of a service-oriented consulting firm and contribute to business development.

Required profile

- Solid technical background, evidenced by an MSc or a PhD in chemistry, (eco)toxicology, biology or related life sciences
- 5-10 years of industry or consulting experience in chemical safety assessment, computational (eco)toxicology (QSAR/Metabolism/PPBK modelling) and/or EU human health and environmental regulations applying to industrial chemicals, consumer products, biocides, and/or agrochemicals
- Excellent oral and written English communication skills; knowledge of another EU language, particularly German, is a plus

Our offer

- A variety of stimulating and rewarding international assignments
- A competitive salary and performance-oriented bonus scheme
- An opportunity to become a member of the management team

While this position is foreseen for our new office in Düsseldorf (Germany), we are open to flexible arrangements including working from our Brussels office.
